

California Greenhouse Gas Legislation AB32 Continuing Education

Course Description

This course is designed for industry and government as an overview of the California Global Warming Solutions Act of 2006, also known as AB32. Learn how the agencies are planning to implement the AB32 legislation and how the implementation of AB32 is changing greenhouse gas emission reporting. Gain the knowledge you need to understand, plan for, and implement Climate Protection and AB32 requirements. AB32 specifies reductions of GHG emissions by 2020. Learn how the goals are determined and how the reductions will be achieved. Enhance your understanding of topics that include: the development of the 1990 emission level, mandatory reporting requirements, preparing a greenhouse gas inventory, Early Action Measures, market mechanisms, and how reductions are going to be achieved.

Learning Objectives: At the end of this seminar, participants will be able to:

1. Understand the AB32 legislation basics
2. Explain the early action items and how they effect industry
3. Describe the voluntary and mandatory actions being taken
4. Understand the reporting requirements
5. Discuss the Greenhouse Gas emission calculation methodologies

Instructor Information: Judy B. Yorke, P.E., C.P.P. , e-mail: JYorke@YorkeEngr.com

Judy Yorke, B.S., PE, CPP, president of Yorke Engineering, LLC, has extensive air emission regulatory compliance experience with industry and government. Ms. Yorke is a recognized expert in federal, state, and local air pollution control laws. She has taught the *Air Quality Permitting and Compliance* course at the University of California Irvine Extension for over 13 years, is a regular speaker at air quality seminars, and is a member of the SCAQMD Permit Streamlining task force. She has performed hundreds of air quality compliance projects in the South Coast requiring auditing, permitting, emission quantification & inventories, as well as compliance management/planning.

Topics Covered

- Climate Protection and Global Warming
- AB32, the California Global Warming Solutions Act of 2006
- Quantifying the 1990 Emission Level, 2020 Limit
- Early Action Measures from CARB
- Mandatory Reporting Requirements
- What is happening with Voluntary Reporting
- Development of Reduction Measures & Market Mechanisms
- Environmental Justice

Class Meeting Information:

Date: Thursday, September 25th
Time: 8:30 a.m.-5:00 p.m.
Place: Ayres Hotel/Anaheim
Cost: \$199 (includes class & reference material)
Sign up: www.YorkeEngr.com/form.html
Questions: Marianne McAvoy 949-248-8490 x22
